

‘Too big for fences: Engaging the User in the Experience’

Presented by
Professor Lynne Hall

In this lecture Professor Hall, Faculty of Computer Science, will draw from her interdisciplinary practice considering how to increase users’ engagement with the design and evaluation of interactive technologies. Professor Hall particular interests lie both in improving the evaluation experience for end users and in increasing the quality and usefulness of such results for users of the research findings.

Thursday 16 November 2017 6.00pm

Prospect Building, room 007

Sir Tom Cowie Campus

THIS EVENT IS FREE AND OPEN TO ALL
